GUIDE FOR AUTHORS

AUTHORSHIP

The listing of authors should only include those who have made an intellectual contribution to the manuscript, who will publicly take responsibility for the data and conclusions and who have approved the final version. Every listed author must have made significant contribution to the conception, design, execution or interpretation of the reported study. Others who have participated in certain substantive aspects of the research project should be acknowledged.

TYPESETTING

- The final manuscript, references, and author's biography must be submitted electronically in MS Word after acceptance.
- Should manuscript make heavy use of equations, symbols, coding, etc., we kindly request that you also submit the PDFs in addition to the MS Word file.
- The text within the manuscript should be edited for proper use of the English language (UK or US but not mixed) with clear, concise sentences.
- ***Please proofread the copy for typographical, grammar and spelling errors***
- All text should be *single*-spaced, left-justified in 11 point Times New Roman type.
- Manuscripts must be formatted on A4 paper, 11 point Times New Roman font type, single or 1.15 spaced, justified and single column not more than 10pages with 1" margin on all sides
- Authors' information should be placed at the top of the first page followed by the abstract (no more than 250 words) and 3-5 keywords.
- Each author's information should include full first name followed by last name and detailed affiliation.
- The corresponding author must provide the full postal corresponding address (including telephone and e-mail address) as footnote at the bottom of the first page.
- A reasonable structure should be adopted with well defined sectional headings such as Introduction, Related work Research Methodology, Results and Discussion, Conclusion, Acknowledgement and References.
- Please put all primary section titles in UPPER CASE letters preceded by a point number and the next subheading in both Upper and Lower Case letters with appropriate section numbers. *Please ensure that any subheadings under the second subheading are easily identifiable.*
- Indent paragraphing should be used where each paragraph is indented uniformly across all sections.
- Tables and Figures should be well labeled with appropriate numbering and titles at top and bottom of table and figure respectively. Use "Table" in front of Table numbers and "Fig." in front of figure numbers
- Equations should be well numbered and formatted as well.
- All images included within each of your manuscript must be submitted as separate high-resolution (600 dpi or more) image files after acceptance.
